As of Nov. 19, 5 California teams and 3 Arizona teams had bowled in 4 California tournaments and none to the east. And no teams from the east or Midwest came to California to bowl in these tournaments. So, lacking any data with which to compare these western teams with those to the east, they are ranked separately. Two of the Arizona teams competed in 2 of the 4 California tournaments, and so do not meet the 4-tournament minimum. For the same reason, the 4 tournaments are not included in the tournament rankings at this time (SLO Rolles, SLO Town Showdown, Oak Tree Open, and Floria Financial Services Open).
